

Lab4Dent

300 ml

Lab4Dent is a mouthwash without parabens and alcohol.

- It inhibits development of caries and tartar.
- Antibacterial and antifungal ingredients.
- Strengthens enamel
- Protects and soothes
- Freshens breath

Three antibacterial ingredients - a combination of active ingredients: chlorhexidine gluconate, xylitol and sage extract effectively protects and promotes healthy, less sensitive gums and helps to maintain appropriate oral hygiene.

0.2% chlorhexidine is an effective antibacterial and antifungal agent; it acts against microorganisms that develop in periodontium; inhibits formation of plaque deposits. This active antiseptic works for many hours. **Xylitol** fights against cariogenic bacteria, has general antibacterial, anticariogenic, refreshing effect and it enhances mineralisation of dental enamel. **Common sage** shows anti-inflammatory, anti-septic and astringent properties.

Ingredients: Agua, Glycerin, Xylitol, Peg 40 Hydrogenated Castor Oil, Propylene Glycol, Salvia Officinalis Extract, Aroma, Panthenol, Chlorhexidine Gluconate, Cl 16255, Triethanolamine, Cinnamal, Eugenol.

Instructions for use: The product is ready to use. Use twice daily, after brushing your teeth. Fill the cap with the mouthwash and rinse your mouth intensely for about 30 to 60 seconds, then spit it out. Do not rinse with water. Or better effects, do not rinse with water after you use the mouthwash. The mouthwash is also recommended for individuals who wear dentures and braces for everyday oral care and hygiene.

Warnings: The product is not recommended for kids under the age of 6. Do not use in case of hypersensitivity to any of the ingredients.

Storage: Keep Lab4dent mouthwash out of sight and reach of children. Do not store at temperature below 25°C in a dark place.

Use the mouthwash together with other lab4dent oral care products.
